SUMMARY

3rd-year B.Tech student passionate about AI/ML, Data Science, Backend and gamified digital experiences. Strong interest in building real-world solutions through collaborative hackathons.

Eager to explore creative problem solving, work in fast-paced team environments, and rapidly prototype functional apps.

EDUCATION

B.Tech in Computer Engineering

2023 – 2027

SHAH & ANCHOR KUTCHHI ENGINEERING COLLEGE

CGPA (upto 5th Sem): 8.05/ 10.0

SKILLS

Languages: C, Python, SQL

Machine Learning & AI: Neural Networks, Natural Language Processing, Large Language Models (LLMs), Generative AI, Transformer Architecture, BERT, GPT, LLaMA, Word2Vec, Embeddings, Tokenization, Fine-Tuning (LoRA, PEFT), Instruction Tuning, RLHF, PPO, DPO, Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Agents, Responsible AI

Frameworks & Libraries: PyTorch, Keras, Scikit-learn, Hugging Face Transformers, LangChain, Flask, Gradio, SciPy, NLTK, spaCy, BeautifulSoup, FastAPI

Database/Auth: FAISS, ChromaDB, Pinecone (Vector Databases), REST APIs

Tools: Git, GitHub, VS Code, Hugging Face Hub, Google Colab

PROJECTS

FairPass — Blockchain-Based Fair Ticket Distribution Protocol | *Python · Flask · Web3.py · Solidity · Ethereum · SHA-256*

- Built a complete Python Flask backend with 5 REST APIs handling KYC identity hashing, dynamic QR generation, and blockchain ticket minting
- Implemented TOTP-based rotating QR codes (refreshes every 30 seconds) using pyotp, making screenshot-based ticket fraud technically impossible
- Integrated web3.py to call Solidity smart contract functions directly from Python, minting NFT tickets on Ethereum with confirmed transaction hashes
- Applied SHA-256 hashing for identity binding, enforcing a per-user ticket purchase limit at the smart contract level to prevent bot-based bulk buying
- Deployed and tested on local Ganache testnet with real blockchain transactions confirmed

Certificate

- IBM-Skillbuild : Getting Started with Artificial Intelligence - [IBM](#)
- AWS Academy Graduate - Data Engineering - [AWS](#)

Extra-Curricular Activities

- **Event Management Coordinator, TEDxSAKEC** - managing volunteer teams, venue setup, audience management, registrations, and ensured smooth event flow—contributing to a high-quality TEDx experience for students, faculty, and external attendees.
